

## Embark on a Journey Through Life with Lifescape on the Switch!

The Colorful Indie Title is Hitting the Nintendo eShop on April 20<sup>th</sup>

**March 2<sup>nd</sup> 1PM CET** – After its release on Apple Arcade and PC, paper plane adventure Lifescape is getting a port for the Nintendo Switch. Developer Dreamteck announced **April 20<sup>th</sup> 2023** as the release date. The game has been recognized for its original flight mechanics, emotional design, and the variety of challenges it offers.

Lifescape is a continuous experience where players fly a paper plane through seven stages of life. Each stage introduces new challenges and mechanics that will put your skills to the test. From learning to fly to navigating treacherous weather conditions, Lifescape offers a one-of-a-kind experience that is relaxing and endearing but also quite challenging. Apart from the story mode, there are also weekly challenges with leaderboards as well as a Zen mode which endlessly generates new experiences.

To make all this possible, the developers had to perform many optimizations to bring the seamless level transitions over to the Switch.

Lifescape has three modes of play:

- **Story** – 28 procedurally generated levels in chronological order
- **Zen** – configurable laidback endless experience
- **Cross-platform Weekly Challenges** – fly fast and close to objects and climb the weekly leaderboard

Lifescape on the Nintendo Switch will be available for **14.99 USD/14.99 EUR/12.80 GBP**. Dreamteck announced that upon release, there will be a challenge with prizes for the best Switch paper plane pilots out there. Those who wish to participate can either follow Dreamteck on Twitter (@dreamteckstudio) or join their Discord to stay tuned.
